GOVERNMENT OF KARNATAKA

DEPARTMENT OF SCHOOL EDUCATION (PU)

LESSON BASED EVALUATION (LBA) 2026-27

SUBJECT – BIOLOGY (36)

CLASS – I PUC

Unit Test 1 – Model Question Paper

Time – 60 Mins Marks – 30

**I. Select the correct alternative from the choices given below. 1X7 = 07**

1. Which of the following is NOT a defining characteristic of living organisms?

A) Metabolism B) Consciousness

C) Growth D) Cellular organization

2. Who introduced the system of binomial nomenclature?

A) Charles Darwin B) Carolus Linnaeus C) Aristotle D) Lamarck

3. In unicellular organisms like bacteria and Amoeba, growth and reproduction are:

A) Mutually exclusive events B) Mutually inclusive events

C) Not related to each other D) Present in dead matter as well

4. What is the correct sequence of taxonomic categories in descending order?

A) Kingdom → Class → Phylum → Order → Family → Genus → Species

B) Kingdom → Phylum → Class → Order → Family → Genus → Species

C) Phylum → Kingdom → Class → Species → Genus → Order → Family

D) Species → Genus → Family → Order → Class → Phylum → Kingdom

5. Which of the following covers the largest number of organisms?

A) Genus B) Family C) Phylum D) Kingdom

6. Match the following scientific names with their correct meanings:

A) Mangifera indica – Mango B) Solanum tuberosum – Potato

C) Panthera leo – Lion D) All of the above

7. Which taxonomic category includes organisms with the most similarities?

A) Phylum B) Class C) Genus D) Species

**II. Fill in the blanks by choosing the appropriate word given below. 1X3 = 03**

( Catabolism, Linnaeus, Botanical, Metabolism )

8. The sum total of all the chemical reactions occurring in the body is known as _____.

9. ICBN stands for International Code for _____ Nomenclature.

10. Binomial Nomenclature was given by _____.

**III. Answer any Two of the following in 3-5 sentences. 2X2 = 04**

11. Why are growth and reproduction not considered defining properties of living organisms?

12. Differentiate between metabolism and consciousness as defining features of life.

13. What is binomial nomenclature? State any two rules of writing scientific names.

14. Define the terms 'Taxon' and 'Systematics

**IV. Answer any Two of the following in 40-80 words. 2X3 = 06**

15. Justify the statement: "Metabolism is a defining feature of all living organisms without exception".

16. Why are growth and reproduction considered non-defining properties of living organisms?

17. If a habitat contains 20 animal species and 20 plant species, is it “diversity” or “biodiversity”?

18. Brinjal and potato belong to the same genus but different species. What separates the two species?

**V. Answer any One of the following in 200-250 words. 1X5 = 05**

19. Define binomial nomenclature. What are the universal rules of binomial nomenclature? Give an example to illustrate.

20. Explain the taxonomic hierarchy. Name the obligate categories used in classification in descending order

**VI. Answer any One of the following in 200-250 words. 1X5 = 05**

21. What are the different defining properties of a living organism?

22. Classify Housefly according to Linnaean heirarchy.
